#### Notes:

- Reserve Rules are in the form A-B-C where:
  - A is the minimum number of days in a row within a block of work.
  - B is the maximum number of work days in a row.
  - ${\tt C}$  is the maximum number of blocks of  ${\tt X}$  days.
- The RLL limit is the most junior category seniority that qualifies to be awarded an RLL under PWA 23.D.10 and 23.D.17.
- The extra X day is added to the 12.N.2 tables when reserve coverage is projected to be at least 20%.

#### 5. PBS BID ASSISTANCE:

Assistance will be available in the Bid Assist Call Center starting on the 8th - 10th from 0800 until 2200EST and the 11th 0800 until 18:00EST at (404) 714-4465, (877) 888 - 0432, or (800) DAL-CREW Option 1, Option 4.

For assistance outside of the call center hours, please forward your bidding questions to Delta and the PBS Committee by going under the heading Forms and Reports on the Crew Resource and Scheduling page to the PBS Bid Inquiry Form that allows you to contact ALPA and the Company simultaneously with your PBS issues. Please make use of this resource when you have PBS questions. Emails will be monitored during normal business hours (0800-1700E) Monday-Friday only. It will NOT be monitored on weekends, holidays and during the bid award window, the 12th-17th each month.

If you are unable to bid due to system related issues, please call 404-715-HELP (4357).

If you have a bidding emergency (you can't access the PBS system or your bid tab shows NO BID with no buttons to add/submit) after the call center closes on the 11th, call Crew Scheduling and ask them to page the PBS Administrator.

#### PBS Q&A

#### Why did I have one of my trips awarded in PBS dropped in iCrew?

Shortly after the PBS bids close, a snapshot of a pilot's current line is taken. This snapshot is taken just prior to the beginning of the PBS processing of that pilot's category, and will include the results of any PCS runs that occurred after the bids closed, but prior to the time that the snapshot was taken. A line will then be built that maintains FAR and PWA compliance with the pilot's line as it exists in the snapshot. Any changes to a pilot's line from the "snapshot" line that occur prior to the completion of the PBS award are not accounted for in the pilot's preliminary award. This can create a violation that must be reconciled prior to the pilot's line being released into iCrew. Reconciliation must be completed no later than 1800E on the 17th of each month.

This reconciliation, known as the *line adjustment process*, is defined as: the process by which the company **removes** a rotation(s) from a regular pilot's line for the next bid period that would otherwise create an FAR and/or PWA conflict(s).

# Am I pay protected for my dropped trips during the Line Adjustment Process?

Rotation guarantee for rotations removed during the line adjustment process is driven by whether the conflict was due to an assignment or an award.

If a rotation on a pilot's future month line is removed as a result of the line adjustment process, and the removal was required because: he over flew his block or duty; he was rerouted into additional block or duty; he was inversely assigned a rotation, or he was assigned a reserve rotation, sometime during the time of the bid award process, that pilot will receive rotation guarantee with a corresponding recovery obligation.

If the line adjustment removal was required as a result of a WS or GS award, then the conflicting trip is removed no pay guarantee.

#### PBS Working Group Updates

**PBS Working Group Updates** 

To ensure that you are running the most up-to-date version of the WebApp, you must clear your browser cache prior to syncing when the bid window opens. The latest version of the WebApp will be posted on the PBS Info Screen. Please see the PBS Help Page for instructions on how to clear your browser cache.

Many helpful PBS tutorial videos are posted in the Video Library at the Delta MEC webpage which is also linked from the PBS Help Page. There are also helpful videos in the PBS Resources section of the DeltaNet Crew Resources webpage. As a reminder, the PBS Desktop Application is no longer supported and does not work. Additionally, once the existing PBS Web UI is retired, third party software to include EasyBid may no longer work for PBS bidding either. It is imperative that all

Delta pilots transition to the PBS WebApp.

Here is a list of helpful websites for your bidding and PBS support:

#### TO ALL PILOTS SCHEDULED FOR TRAINING

In our continuous effort to improve communications with the pilot, we hope that the following information will assist you with your training needs.

When you are awarded an advance entitlement or displacement to another category, and training has been scheduled, a package will be mailed to you, approximately the middle of the month prior to the month you will attend training. It will contain panel prints, a guide on how to access the LMS to complete your distance learning and any other pertinent information known at the time. You will also be sent an e-mail that will confirm your training dates, times, type of training, hotel and fleet information. All content will be sent to your DBMS mailing/e-mail address.

Section II.I of the Pilot Working Agreement provides for a pilot who undergoes training away from his domicile to receive Positive Space on-line (Delta) transportation, JSA/XCM transportation between any Delta station and the training facility.

#### FLIGHT RESERVATIONS

You may log on to Delta's Travel Net and book Company Business positive space on the flights you need.

(Note: Travel to and from training should be booked in coach class.)

During a break in training of 48 hours or more, if the pilot is training at a site away from their domicile, and **IF** a seat is available at the time of booking, Positive Space on-line reservations can be made through Travel Net.

(Note: Travel to and from training should be booked in coach class.) Reservations may be booked for 48 hour breaks or more in training after the training schedules have been published.

Flight Training Planning office hours are 0730-1600 ET, Monday through Friday, and phone numbers are listed below by equipment. After business hours, you may leave a detailed message at the respective number.

73N/320/330/717 7ER/765/A220/A350 404-715-1801 or 1-800-325-2739

#### **HOTELS**

Section 5E.1.b. of the Pilot Working Agreement provides lodging for a pilot at his base when undergoing qualification training provided he submits a request for such lodging to Flight Training Planning not later than seven days before the date of the close of line bidding for the bid period in which the training is scheduled or the date of notification of his scheduled training, whichever is later. Hotel check in time 15:00 hours, at the earliest. They will make every effort to get you into your room prior to that time if they are not at full capacity and your room is clean. You may leave baggage at the hotel in a lock-up area if your room is not available for occupancy at a convenient time for you. You are expected to check out of the hotel the same day you are to travel home after a training event. Regular published check out time is 12:00. You can request a late check out of up to 1 or 2 hours from the hotel and they will accommodate your request, if possible. Reminder, Delta will not pay for the room after 12:00 or the hotel approved late check out time if you are scheduled to deadhead home that day.

If you do not arrive at the Hotel on the date listed on your training letter, the hotel will cancel your entire stay. If you know you will be arriving on a different date please call the Flight Training Assistants at 1-800 DAL-CREW, so they can make changes with the hotel to accommodate your requirements. If you **reside in Atlanta** and are based in another domicile and do not desire hotel accommodations, **please advise** Flight Training Planner at 404-715-1801 or 1-800-325-2739 ASAP, as we can use those resources for other purposes.

#### **WEB SITE**

CQ training schedules will be available on Delta Net by accessing your fleet page. If you wish to swap your CQ training days with another pilot, please contact your appropriate planner, preferably prior to the 15<sup>th</sup> of the month prior to the bid period in which the training will occur, after you have received the approval from the other pilot. We will be unable to process any changes between the 15<sup>th</sup> and 20<sup>th</sup> of the month prior to the bid period in which the training will occur due to PBS bid award processing.

The Flight Training Planners and Training Assistants are located in OC-II on the 4<sup>th</sup> floor in the southwest corner.

For questions regarding the scheduling of training required for an award received via a bid posting, please see the bid package letter from **Crew Resources**.

#### **Delta Simulator Times**

The PWA agreement, allows volunteers to train in sim periods that otherwise would not have been used. In return the pilot training during specified time periods will receive additional pay. The details of the changes can be found in the PWA under sections 11F. 7. E. Note and 11 F. 13. A. 2.

#### 350 FOUR PILOT OPERATIONS & FRMS

FAR 117 contain flight duty period limits that create operational challenges on some of our longest flights, both eastbound and westbound. In order to continue to effectively manage fatigue related risk, as well as address the new operational challenges, Delta has developed a Fatigue Risk Management System (FRMS) for the 350.

A FRMS is a scientific based approach that demonstrates that Delta can safely manage fatigue related risk to the same level or greater than prescribed in FAR 117. One of the conditions of Delta's approved DALA-001 is that 350 four pilot FRMS operations receive a greater scheduled rest period prior to the flight. See the table on the next page for the associated rest requirements. As a result of this requirement and other factors that affect scheduled departure and arrival times (i.e., slot times, hub connections, etc.), there may be occasions where 350 crews will have scheduled layovers at or near 48 hours while other equipment types will have scheduled layovers at or near 24 hours for the same route. Flights operating under DALA-001 do not have a block limit and the maximum scheduled FDP will be 20:30. The FDP can be extended up to two hours, not to exceed 22:30.

350 flights operating under FRMS are DTW-PEK, PEK-DTW, ATL-ICN, ICN-ATL, LAX-PVG, PVG-LAX, DTW-PVG, PVG-DTW, ATL-PVG, PVG-ATL, LAX-SYD, SYD-LAX, ATL-JNB and JNB-ATL.

Below is an example of a FRMS rotation published in the 350 bid package. Note that the max block is defined as 99:59 to signify the lack of a block limit and the max FDP is set at 20:30.

#### ATTENTION ALL PILOTS

#### REGION LETTER CODES FOR PUBLISHED ROTATIONS

We have added letters to the front of rotations to designate rotations by regions.

Atlantic trips on the 330 and 765 will continue to begin with the letter "A". Pairings for the 350 and 7ER will continue to begin with the letter "B".

The following letters will be placed in front of rotation numbers that fly to the corresponding region.

A - Atlantic for 330 and 765

B – Atlantic 350 and 7ER

L – Latin America for the 330,765, 350, 7ER, 320 and 717

C - Latin America for the 73N

M – Military

P - Pacific

R - Africa

U - South America

Military rotations will begin with the letter M regardless of the region they fly. Any rotation that flies to two regions will be prioritized in the following order: 1) M - military charter, 2) A or B- Atlantic, 3) R - Africa, 4) P - Pacific, 5) U - South America, 6) L or C - Latin America 7) Domestic.

Created rotations built after the bid packages are published will continue to begin with the number 0, regardless of the region they fly. Rotation pairing numbers will continue to be four characters in length.

Be advised, the trips on the carry out Trip Report are subject to change.

There may be a change of layover hotels. The latest hotel name will be displayed on the rotations in DBMS.

Monthly market changes shared within the planner letter are bucketed by schedule period. Schedule periods do not always align with crew bid period date ranges and can hide monthly differences from displaying as expected. Purpose is to show where markets are being added or removed from cockpit types. Only market departure count differences of 11 or greater are included to highlight full month market changes rather than weekend only, special event or charter operations.

Please contact 1-800-DAL-CREW if you plan to deviate from your deadhead. Please use this same phone number to cancel any unused hotels that result from deviation. The projected number of regular lines is posted on the Crew Resources and Scheduling home page.

As a reminder, once the existing PBS Web UI is retired. Third party software to include EasyBid will no longer work for PBS bidding. It is imperative that all Delta pilots transition to the PBS WebApp.

Pilots are urged to contact their local Rotation Construction Committee representative(s) with any suggestions, questions, or comments related to rotation construction.

### Minimum Separation Length

In accordance with the Joint Collective Bargaining Agreement Sections 12 N.9.e. "Note one" and 23 I.7. "Note two," we will begin including in the monthly bid packages the minimum separation length (MSL) for affected international categories and a table that summarizes the trip lengths by category. For those of you that are interested, the above stated contract sections read:

If an international category pilot has a reserve line that contains a contiguous block(s) of nine or more on-call days and is in a category in which 20% or more of the published rotations are scheduled to operate for nine or more days, he may not move an X-day if such X-day move would reduce the length of such contiguous block(s) of on-call days below the weighted average length, rounded to the nearest whole number, of all published rotations in the category that are scheduled to operate for nine or more days.

#### And

If an international category reserve pilot is subject to an MSL, as published in the bid package, a PD request may be denied (See Section 12 N.9.e. Exception) if granting the request does not maintain the minimum separation published in the bid package between the PD requested day and:

- a) X-day blocks,
- b) a training day(s),
- c) a vacation day(s),
- d) an already granted PD/APD days(s), or
- e) A day(s) of jury duty.

There are no MSL's for the month of December 2022.
